| Supplier's details   | :          | <b>POLYONE CORPORATION</b><br>ColorMatrix Group Inc.<br>680 North Rocky River Drive, Berea, Ohio, 44017-1628, USA |
|  |            | +1 216 622 0100   |
| Emergency telephone number<br>(with hours of operation)  | :          | CHEMTREC 1-800-424-9300 (24hrs for spill, leak, fire, exposure or accident).                                      |

# Section 2. Hazards identification

This mixture has not been evaluated as a whole for health effects. Information provided on health effects of this product is based on the individual components. However, some vapors or contaminants may be released upon heating and the end-user (fabricator) must take the necessary precautions (mechanical ventilation, respiratory protection, etc.) to protect employees from exposure. See sections 8 and 11 for special precautions. After handling, always wash hands thoroughly with soap and water.

| OSHA/HCS status                            | : | While this material is not considered hazardous by the OSHA Hazard<br>Communication Standard (29 CFR 1910.1200), this SDS contains<br>valuable information critical to the safe handling and proper use of the<br>product. This SDS should be retained and available for employees and<br>other users of this product. |
|--|---|--|
| Classification of the substance or mixture | : | Not classified.  |

#### GHS label elements

## EVA- WOLF GRAY V3

Version Number 1.0 Revision Date 08/24/2017 Page 2 of 14 Print Date 08/26/2017

| Signal word<br>Hazard statements | : | No signal word.<br>No known significant effects or critical hazards. |
|----------------------------------|---|--|
| Precautionary statements         |   |  |
| General                          | : | Not applicable.  |
| Prevention                       | : | Not applicable.  |
| Response                         | : | Not applicable.  |
| Storage                          | : | Not applicable.  |
| Disposal                         | : | Not applicable.  |
| Supplemental label elements      | : | None known.  |
| Hazards not otherwise classified | : | None known.  |

# Section 3. Composition/information on ingredients

| Substance/mixture             | : | Mixture    |
|-------------------------------|---|------------|
| Chemical name                 | : | Mixture    |
| Other means of identification | : | CC10268528 |

CAS number/other identifiers

| Ingredient name | %       | CAS number |
|-----------------|---------|------------|
| Carbon black    | 0.1 - 1 | 1333-86-4  |
|                 |         |            |
|                 |         |            |

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

## Section 4. First aid measures

#### Description of necessary first aid measures

Eye contact

: Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.

# EVA- WOLF GRAY V3

| Version Number 1.0       | Page 3 of 14          |
|--------------------------|-----------------------|
| Revision Date 08/24/2017 | Print Date 08/26/2017 |
|                          |                       |

| Inhalation   | : | Remove victim to fresh air and keep at rest in a position comfortable |
|--------------|---|---|
|              |   | for breathing. Get medical attention if symptoms occur.               |
| Skin contact | : | Flush contaminated skin with plenty of water. Remove contaminated     |
|              |   | clothing and shoes. Get medical attention if symptoms occur.          |
| Ingestion    | : | Wash out mouth with water. Remove victim to fresh air and keep at     |
|              |   | rest in a position comfortable for breathing. If material has been    |
|              |   | swallowed and the exposed person is conscious, give small quantities  |
|              |   | of water to drink. Do not induce vomiting unless directed to do so by |
|              |   | medical personnel. Get medical attention if symptoms occur.           |

#### Most important symptoms/effects, acute and delayed

| Version Number 1.0                         | Page 4 of 14  |
|--|---|
| Revision Date 08/24/2017                   | Print Date 08/26/2017   |
|  |   |
|  |   |
| Specific hazards arising from the chemical | : In a fire or if heated, a pressure increase will occur and the container may burst. |

| Hazardous thermal decomposition products         | : | Decomposition products may include the following materials:<br>carbon dioxide<br>carbon monoxide<br>metal oxide/oxides  |
|--|---|---|
| Special protective actions for fire-<br>fighters | : | Promptly isolate the scene by removing all persons from the vicinity<br>of the incident if there is a fire. No action shall be taken involving any<br>personal risk or without suitable training. |
| Special protective equipment for fire-fighters   | : | Fire-fighters should wear appropriate protective equipment and self-<br>contained breathing apparatus (SCBA) with a full face-piece operated<br>in positive pressure mode.                        |

# Section 6. Accidental release measures

#### Personal precautions, protective equipment and emergency procedures

| For non-emergency personnel                           | : | No action shall be taken involving any personal risk or without<br>suitable training. Evacuate surrounding areas. Keep unnecessary and<br>unprotected personnel from entering. Do not touch or walk through<br>spilled material. Put on appropriate personal protective equipment.  |
|---|---|---|
| For emergency responders                              | : | If specialized clothing is required to deal with the spillage, take note<br>of any information in Section 8 on suitable and unsuitable materials.<br>See also the information in "For non-emergency personnel".   |
| Environmental precautions                             | : | Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).   |
| Methods and materials for containment and cleaning up |   |   |
| Small spill   | : | Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.   |
| Large spill   | : | Stop leak if without risk. Move containers from spill area. Prevent<br>entry into sewers, water courses, basements or confined areas. Wash<br>spillages into an effluent treatment plant or proceed as follows.<br>Contain and collect spillage with non-combustible, absorbent material<br>e.g. sand, earth, vermiculite or diatomaceous earth and place in<br>container for disposal according to local regulations (see Section 13).<br>Dispose of via a licensed waste disposal contractor. Note: see Section |

#### Page 5 of 14 Print Date 08/26/2017

1 for emergency contact information and Section 13 for waste disposal.

# Section 7. Handling and storage

#### Precautions for safe handling

| Protective measures<br>Advice on general occupational<br>hygiene | : | Put on appropriate personal protective equipment (see Section 8).<br>Eating, drinking and smoking should be prohibited in areas where this<br>material is handled, stored and processed. Workers should wash hands<br>and face before eating, drinking and smoking. Remove contaminated<br>clothing and protective equipment before entering eating areas. See<br>also Section 8 for additional information on hygiene measures.   |
|--|---|--|
| Conditions for safe storage,<br>including any incompatibilities  | : | Store in accordance with local regulations. Store in original container<br>protected from direct sunlight in a dry, cool and well-ventilated area,<br>away from incompatible materials (see Section 10) and food and<br>drink. Keep container tightly closed and sealed until ready for use.<br>Containers that have been opened must be carefully resealed and kept<br>upright to prevent leakage. Do not store in unlabeled containers. Use<br>appropriate containment to avoid environmental contamination. |

# Section 8. Exposure controls/personal protection

:

#### **Control parameters**

#### **Occupational exposure limits**

| OSHA PEL 1989 (1989-03-01)                                  |
|---|
| PEL: Permissible Exposure Level 3.5 mg/m3                   |
| OSHA PEL (1993-06-30)                                       |
| PEL: Permissible Exposure Level 3.5 mg/m3                   |
| NIOSH REL (1994-06-01)                                      |
| Time Weighted Average (TWA) 3.5 mg/m3                       |
| Time Weighted Average (TWA)                                 |
| ACGIH TLV (2010-12-06)                                      |
| TLV-TWA: Threshold Limit Value - Time weighted average PEL: |
| Permissible Exposure Level 3 mg/m3 Form: Inhalable fraction |
|   |
|   |

#### Appropriate engineering controls

Good general ventilation should be sufficient to control worker exposure to airborne contaminants.

# EVA- WOLF GRAY V3

|  | <b>_</b> <i></i>  |
|--|---|
| Version Number 1.0<br>Revision Date 08/24/2017 | Page 6 of 14<br>Print Date 08/26/2017   |
| Revision Date 08/24/2017                       | Fillit Date 08/20/2017  |
|  |   |
| Environmental exposure controls                | : Emissions from ventilation or work process equipment should be<br>checked to ensure they comply with the requirements of<br>environmental protection legislation. In some cases, fume scrubbers,<br>filters or engineering modifications to the process equipment will be   |
|  | necessary to reduce emissions to acceptable levels.   |
| Individual protection measures                 |   |
| Ungiono moogunos                               | Wash hands, forearms and face therewashly after handling chemical   |
| Hygiene measures                               | : Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location. |
| Eye/face protection                            | : Safety eyewear complying with an approved standard should be used<br>when a risk assessment indicates this is necessary to avoid exposure to<br>liquid splashes, mists, gases or dusts. If contact is possible, the<br>following protection should be worn, unless the assessment indicates a<br>higher degree of protection: safety glasses with side-shields.                     |
| Skin protection                                |   |
| Hand protection                                | : Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.   |
| Body protection                                | <ul> <li>Personal protective equipment for the body should be selected based<br/>on the task being performed and the risks involved and should be<br/>approved by a specialist before handling this product.</li> </ul>   |
| Other skin protection                          | <ul> <li>Appropriate footwear and any additional skin protection measures<br/>should be selected based on the task being performed and the risks<br/>involved and should be approved by a specialist before handling this<br/>product.</li> </ul>   |
| Respiratory protection                         | Based on the hazard and potential for exposure, select a respirator that<br>meets the appropriate standard or certification. Respirators must be<br>used according to a respiratory protection program to ensure proper<br>fitting, training, and other important aspects of use.   |

# Section 9. Physical and chemical properties

#### **Appearance**

| Physical state | : liquid [liquid] |
|----------------|-------------------|
| Color          | : GREY            |
| Odor           | : Faint odor.     |
| Odor threshold | : Not available.  |

# Section 13. Disposal considerations

| Disposal methods : | The generation of waste should be avoided or minimized wherever<br>possible. Disposal of this product, solutions and any by-products<br>should at all times comply with the requirements of environmental<br>protection and waste disposal legislation and any regional local<br>authority requirements. Dispose of surplus and non-recyclable<br>products via a licensed waste disposal contractor. Waste should not be<br>disposed of untreated to the sewer unless fully compliant with the<br>requirements of all authorities with jurisdiction. Waste packaging<br>should be recycled. Incineration or landfill should only be considered |

|  |   |   |

Caution: HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks Although HMIS® ratings are not required on SDSs under 29 CFR 1910.1200, the preparer may choose to provide them. HMIS® ratings are to be used with a fully implemented HMIS® program. HMIS® is a registered mark of the National Paint & Coatings Association (NPCA). HMIS® materials may be purchased exclusively from J. J. Keller (800) 327-6868. The customer is responsible for determining the PPE code for this material.
